

Gripspan® Summit Kit

In order to comply with the recommendations of AS1657-2013 App J 2.2, a 2 metre long walkway should be installed at the roof edge to protect employees or contractors accessing the roof via a perimeter ladder or boom lift.

Summit Kits come neatly packaged up and available off the shelf so you can get it on-site and installed fast, with no fuss. Kits include all the components and fasteners you need to build a 2 metre long aluminium roof entry with Gripspan® planking and integrated guardrail, with or without a self closing gate.

Summit Kit in situ, providing safe access to the roof.

Summit Kits offer the following features

- Easy to assemble - no cutting or fabrication required
- Low maintenance raw aluminium finish
- 2m span between supports - less fixing penetrations
- Suitable for new-build or retrofit.
- Designed and tested to comply with AS1657- 2013
- Minimal installed weight - just 30kg

Available in 2 options - gate or no gate.

Item Code	Description	Kit	Mass (kg)
SK_EDGE	Summit walkway edge kit without gate	Box A	30
